

DATASHEET: KWIKRETE BOND IT LIQUID

Product Description

Bond It Liquid is a water-resistant, liquid to mixed in adhesive designed for ceramic wall tiles in interior spaces, including kitchens, bathrooms, and domestic shower areas. It offers excellent grip properties, reducing the need for battens or spacers, and features high spread ability for easy application.

Key Features

- Water-resistant: Suitable for use in wet environments, including showers and bathrooms
- Excellent grip: Reduces the need for battens or spacers
- Easy application: High spread ability for DIY and professional use
- Non-slip: Allows for tile repositioning during installation
- Instant grab: Enables quick and secure placement of tiles

Technical Specifications

- Volume: Available in 5 liter & 20 liters
- Color: Off-white
- Drying time: 24-72 hours
- Shelf life: At least 12 months from the date of manufacture when stored in original, sealed containers

APPLICATION AND LIMITATIONS

- Suitable surfaces: Gypsum plaster, cement fiberboard, existing tiles, cement render, concrete blockwork, timber panels, and plywood composite boards
- Not suitable for: Swimming pools, areas subject to total immersion
- Substrate preparation: Ensure surface is clean, stable, and free from dust, oil, grease, and loose coatings
