

DATA SHEET / READY MIXED CONCRETE

GENERAL DESCRIPTION:

KWIKRETE READY MIXED CONCRETE is a construction grade Concrete Mix, designed for casting fence or wash line poles; repairs to driveways; building of pathways etc.

ADVANTAGES:

- Correctly proportioned
- Cost effective (required amount can be purchased)
- Watertight

APPLICATIONS:

- Surfaces to receive KWIKRETE READY MIXED CONCRETE should be free of dirt, loose debris, grease and oil for best possible bond
- If material becomes too difficult to mix, add additional water until workable.
- Curing of concrete is required only if conditions are very hot, dry or windy. In such cases, a gentle mist of water applied to the surface will prevent premature drying and improve strength of the KWIKRETE READY MIXED CONCRETE.
- Bonding Liquid can also be used for extra strength.

PACKAGING:

KWIKRETE READY MIXED CONCRETE is supplied in a UVC protected bag in pack sizes of 12; 25 and 40kg

TECHNICAL DATA:

SIZE	Plaster Coverage 1mx1mx50mm	WATERAGE
25kg	± 5 – 6bags	2-4L
25kg	± 3-4 bags	4-6L
