

DATA SHEET / READY MIXED MORTAR

GENERAL DESCRIPTION:

KWIKRETE MORTAR MIX is a construction grade Mortar Mix, designed for laying and also used to plaster.
Appearance: Powder – Cement grey Mix.

ADVANTAGES:

- Easy to use
- Standard drying time
- Multiple substrate compatibility
- Economical
- No crumbling

MIXING:

Surfaces to receive KWIKRETE READY MIXED MORTAR should be clean and free of dirt, loose debris, grease and oil for best possible bond. If material becomes too difficult to mix, add additional water until workable to specification.

For best results, make use of Kwikrete Bonding Liquid.

CURING:

Curing of mortars is required only if conditions are very hot, dry or windy. In such cases, a gentle mist of water applied to the surface will prevent premature drying and improve strength of the KWIKRETE READY MIXED MORTAR. Surfaces to receive KWIKRETE READY MIXED MORTAR should be clean and free of dirt, loose debris, grease and oil for best possible bond.

For best results, adding of Bonding Liquid is permitted.

PACKAGING:

KWIKRETE READY MIXED MORTAR is supplied in a UVC protected bag in pack sizes of 12; 25 and 40kg

TECHNICAL DATA:

SIZE	Brick Coverage	Plaster Coverage	WATERAGE
12kg	± 20 bricks	± 22 one side	2-3L
25kg	± 40 bricks	± 44 one side	3-4L
40kg	± 68 bricks	± 70 one side	4-6L
