

DATASHEET

KWIKRETE™ READY MIXED MORTAR

GENERAL DESCRIPTION:

KWIKRETE™ READY MIXED MORTAR is a construction grade Mortar Mix, designed for laying and also used to plaster. Appearance: Powder – Cement grey Mix.

ADVANTAGES:

- Easy to use
- Standard drying time
- Multiple substrate compatibility
- Economical
- No crumbling

MIXING:

Surfaces to receive KWIKRETE™ READY MIXED MORTAR should be clean and free of dirt, loose debris, grease and oil for best possible bond. If material becomes too difficult to mix, add additional water until workable to specification.

For best results and added strength make use of the Kwikrete™ Bonding Liquid.

Registration Number: 2012/175489/07

22 McLaren Dr, Milnerton Rural, Cape Town, 7441

CURING:

Curing of mortars is required only if conditions are very hot, dry or windy. In such cases, a gentle mist of water applied to the surface will prevent premature drying and improve strength of the KWIKRETE™ READY MIXED MORTAR. Surfaces to receive KWIKRETE™ READY MIXED MORTAR should be clean and free of dirt, loose debris, grease and oil for best possible bond.

For best results and added strength make use of the Kwikrete™ Bonding Liquid.

PACKAGING:

KWIKRETE™ READY MIXED MORTAR is supplied in a UVC protected bag in pack sizes of 12; 25 and 40kg

TECHNICAL DATA:

SIZE	Brick Coverage	Plaster Coverage	WATERAGE
12kg	± 20 bricks	± 22 one side	±2-3LT
25kg	± 40 bricks	± 44 one side	±3-4LT
40kg	± 68 bricks	± 70 one side	±4-6LT
COMPRESSIVE STRENGTH 20MPA
